## Speakers

### Prof Anthony Scott

2020 Policy Impact Prize Awardee

Anthony is Professor and Program Co-ordinator of the Health and Healthcare research program at the Melbourne Institute: Applied Economic and Social Research, The University of Melbourne. His research interests focus on the behaviour of physicians, health workforce, incentives and performance, primary care, and hospitals.

### Dr Victoria Baranov

2020 Rising Star Awardee

Victoria is a Senior Lecturer at the University of Melbourne. Her research explores how health, psychological factors, and norms interact with poverty and economic development. For example, her recent work has focused on maternal depression and its implications for the intergenerational transmission of disadvantage.

## A/Prof Richard Norman

2020 Rising Star Awardee

Richard is an A/Professor in Health Economics in the School of Public Health at Curtin University. His research focuses on economic evaluation methods, particularly how we measure and value health. As part of this work, he chairs EuroQoL's Valuation Working Group, and is Associate Editor at *Value in Health*.

## Prof Paul Worley

Discussant

Paul is an elected Fellow of the Australian Academy of Health and Medical Sciences and the immediate past National Rural Health Commissioner for Australia. Whilst maintaining an active clinical practice as a Rural Generalist for over three decades, Paul has served as Dean of Medicine at Flinders University and created innovative Rural Clinical Schools and University Departments of Rural Health. His pioneering work in rural community based medical education has been recognised with numerous awards.
